SPECIAL OPERATIONS WARRIOR FOUNDATION

HALO JUMP

NOVEMBER 9-11 | YOLO, CA

BACKGROUND

Tactivate is proud to be supporting Jimmy Petrolia, former **USAF Pararescuemen** on his world record attempt to raise funds and awareness for the **Special Operations Warrior Foundation** (SOWF). SOWF is an initiative which supports the children and families of fallen Special Operations Veterans for education and personal development.

Jimmy and his team on Veterans Day are going to attempt to break two skydiving world records.

The FAA is collaborating and de-conflicting airspace to enable Jimmy and his team to make their record attempts and to provide Tactivate invitees with a once in a lifetime chance to train alongside Special Operations Veterans.

HALO JUMP

Full oxygen facemask, flight-helmet and World-Class jump partner required! You will be stepping out of an aircraft from an altitude of 30,000', the same altitude commercial airliners cruise at. With over two minutes of free fall this, is not an average civilian skydive, but a rare opportunity to experience a HALO jump usually only conducted in the military by Special Operations Forces.

JUMP + RESILIENCY TRAINING

In addition to receiving jump training, Special Operations Veterans will conduct a resiliency skills workshop. All exercises are designed to increase your situational awareness and to teach you to better function and remain calm under duress – invaluable attributes that will positively impact all facets of life: from your relationships to business. You will walk away being more of a humble savage than when you arrived. You will forge fast friendships across the civilian military divide.

Tactivate is an organization that facilitates the meshing of the military Special Operations Veteran community and the startup entrepreneurial ecosystem.
